It was 1908 when Nelson A. Taylor made his first custom canvas piece for the boating industry. Taylor Made has since built a legacy of quality marine products that boaters all around the world have come to trust.

Our industry-leading team of engineers are not only extraordinarily capable but bring with them decades of expert training and knowledge of marine manufacturing processes. Taylor Made sets the standard for design and excellence in boat fenders, covers and tops, dock products, furniture, windshields and a wide variety of other boating accessories.

Our mission is to simply build the highest quality marine products in the world. No compromises. Our legacy precedes us.
The AquaFi™ Hotspot is designed specially for the rigors of the marine lifestyle. AquaFi delivers fast, reliable WiFi on-the-go with its secure 2.4 GHz connection. AquaFi can connect multiple devices at one time at 4G LTE speeds up to 150 Mbps. All critical components are securely contained within AquaFi’s waterproof casing, helping it withstand damp environments. Power is no problem either. AquaFi easily snaps in and out from its included charging dock. Want to take AquaFi on shore? Simply use the included AC-DC adapter and plug AquaFi into any 110v power supply. Whether you’re enjoying a lazy day on the pontoon boat or on a serious fishing trip, AquaFi keeps everyone connected while on board*.

Easy setup through the AquaFi app. (available for download on iOS or Android stores)

Waterproof design contains all antennas and critical components

Connect up to 10 users without sacrificing speed performance

4G LTE connectivity with speeds up to 150 Mbps

Nano SIM card required for operation (included)

Docking station included for easy onboard mounting solution

AC-DC adapter included for use in standard 110V power outlets for off-board use

AquaFi’s design allows it to float, so don’t worry about dropping it in the water.

*Connectivity speeds will vary depending on cellular signal strength. Certified for use for North America (CA & AT&T, 3G bands II/IV/V & 4G LTE bands 2/4/12).

Fends & Buoys
LIFETIME GUARANTEE
If any of our fenders ever splits or busts, we’ll replace it, guaranteed.

QUALITY CONSTRUCTION
Our fenders are made from the highest quality vinyl to last in the harsh marine environment.

MADE IN THE USA
Taylor Made first introduced rotationally-molded boat fenders to the recreational marine market, and we continue to lead the charge today.

LIFETIME GUARANTEE
Against splitting or bursting.

TAKE COLOR TO THE NEXT LEVEL.
True Color® technology is a patented color process that provides deeper, richer colors. The integrated color agents provide added luster in sunlight. New for 2020 this process is now available on all of our fender lines. The competition’s fenders will never look this good.
**SUPER GARD**

**INFLATABLE VINYL FENDERS**

Super Gard fenders incorporate the latest in technology and design innovation to bring you the best protection. Super Gard fenders are made from the highest quality marine grade vinyl and feature a high gloss finish with rubber football needle valve.

**STANDARD COLORS**

- **WHITE**
  - Mid Atlantic Blue
  - Black
  - Emerald Green
  - Captain’s Navy
  - Ruby Red
  - Aurora Gold
  - Yellow
  - Green
  - Blaze Orange

**RECOMMENDED INFLATION (2 PSI)**

Choosing the right fender size and quantity of fenders is critical to protecting your boat. The Taylor Made boat size chart is the minimum recommendation and it is advised to consult with your marina and docking neighbors to be sure you have adequate protection for prevailing conditions.

**STORM GARD®**

**INFLATABLE VINYL FENDERS**

Storm Gard® fenders are in a class of their own, and feature all the same great qualities as our standard Hull Gard®, Super Gard and Big B® fenders.

**STANDARD COLORS**

- **WHITE**
  - Mid Atlantic Blue
  - Black
  - Captain’s Navy
  - Emerald Green
  - Burgundy
  - Silver Mist
  - Aurora Gold

**RECOMMENDED INFLATION (2 PSI)**

Choosing the right fender size and quantity of fenders is critical to protecting your boat. The Taylor Made boat size chart is the minimum recommendation and it is advised to consult with your marina and docking neighbors to be sure you have adequate protection for prevailing conditions.
The versatile Big B™ fender incorporates a center rope tube that allows end-to-end line passage. Big B™ inflatable vinyl fenders feature seamless construction, with molded ribs to minimize roll. Big B™s are made from the highest quality marine grade vinyl with a high gloss finish.

Valve seats are integrally molded into the fender, not glued in like the competition.

**EYELETS**

Reinforced molded-in eyelets

**UNIQUE OVAL SHAPE**

Prevents fender from rolling out of position.

**STANDARD COLORS**

- **WHITE**
- **MID ATLANTIC BLUE**
- **BLACK ONYX**
- **BURGUNDY**
- **EMERALD GREEN**
- **CAPTAIN'S NAVY**
- **RUBY RED**
- **AURORA GOLD**

Choosing the right fender size and quantity of fenders is critical to protecting your boat. The Taylor Made boat size chart is the minimum recommendation and it is advised to consult with your marina and docking neighbors to be sure you have adequate protection for prevailing conditions.

Recommended inflation is 2 PSI.

**STANDARD COLORS**

- **AURORA GOLD**

Choosing the right fender size and quantity of fenders is critical to protecting your boat. The Taylor Made boat size chart is the minimum recommendation and it is advised to consult with your marina and docking neighbors to be sure you have adequate protection for prevailing conditions.

Recommended inflation is 2 PSI.
 Sec.01 Fenders & Buoys

**TUFF END™ FENDERS**

Tuff End® fenders are for heavy-duty marine applications. Constructed from the same flexible, resilient vinyl as our Super Gard, Big B®, and Hull-Gard® fenders, the end in each Tuff End® is injection molded for extra strength and reliability. Tuff End® fenders feature a seamless construction, designed to perform under the most demanding conditions. Now inflatable with any standard pump.

**Inflation**

Recommended inflation is 2 PSI. Any standard pump can be used. For Tuff End® fenders, the end in each Tuff End® is injection molded for extra strength and reliability. Tuff Ends feature a seamless construction, designed to perform under the most demanding conditions. Now inflatable with any standard pump.

**Material**

Made from injection molded vinyl, these fenders are tested to 2000 psi tensile strength, the strongest in the industry. Tuff Ends feature a seamless construction, designed to perform under the most demanding conditions. Now inflatable with any standard pump.

**Strength**

Injection molded ends for high strength.

**Fits**

Boats over 100 feet can be fitted with these long-lasting fenders that are also great for rafting.

**STANDARD COLORS**

- **White**
- **Blue**

SPECIALTY Buoys

THE SPOILER® LOW DRAG BUOY

The secret of the Spoiler® success is a more rounded shape producing greater buoyancy and lower drag when compared to other well known makes. Ribbed design also helps keep drag to an absolute minimum. This unique design creates the turbulence necessary to lift the buoy from the water’s surface generating up to 88% less drag.

- Patented Trivalve allows for quick inflation without removing the valve
- Curved design prevents rope chafing
- Rib design lifts the buoy from water surface causing less drag
- MORE BUOYANCY 2.5% to 15% more than our competitors
- MORE VISIBILITY Large, vivid colors, non-fading neon colors
- LESS DRAG Up to 82% at 4.5 knots

 WHEN ORDERING
To order one of the available colors above, add the color number as a suffix to the end of the item number. For example: 54003 + Neon Yellow Spoiler buoy with 33” circumference.

- ORANGE
- NEON RED
- ROCKET RED
- NEON YELLOW
- NEON GREEN
- WHITE
- BLACK
- BLUE

When ordering, add the color number as a suffix to the end of the item number.

THE SPOILER® LOW DRAG BUOY

- Made from PVC these lightweight but durable inflatable buoys will mark your slalom course in accordance with the AWSA specifications (American Water Ski Association). Each buoy has a molded-in loop to fasten anchor line and contains an inflation valve for air pressure adjustment. Buoys measure 9” in diameter with a 1/2” eye hole. Approximate buoyancy: 13 lbs.

#151 Green #152 Yellow #153 Orange #154 Camo

HOT SPOT MARKER BUOYS

Our Hot Spot marker buoys are used to mark structures, weed lines, drop offs and hot spots. The 6 oz. lead free weight ensures rapid deployment and the patented low profile helps resist wind and current drift. Comes with a lifetime warranty on the buoy. Case quantity: 12.

#151 Green #152 Yellow #153 Orange #154 Camo

WATER SKI MARKER BUOYS

Made from PVC, these lightweight but durable inflatable buoys will mark your slalom course in accordance with the AWSA specifications (American Water Ski Association). Each buoy has a molded-in loop to fasten anchor line and contains an inflation valve for air pressure adjustment. Buoys measure 9” in diameter with a 1/2” eye hole. Approximate buoyancy: 13 lbs.

#155 Green #156 Red #157 Yellow

PERSONAL WATERCRAFT BUOYS

This multi-use rugged float can be used as a pick-up buoy, marker buoy, or tender. Makes a great marker for water ski events and can be used as a tender for personal watercraft. Taylor Made’s unique double color system incorporates a “back-up” color that resists fading. Fluorescents will retain their color long after the competition’s has faded away. Buoys measure 8” in diameter with an approximate buoyancy of 8 lbs.

#140 White #141 Neon Green #142 Neon Red #143 Orange #144 Rocket Red #145 Neon Yellow

ROUNDED DESIGN

The unique patented design allows the buoy to deploy quickly sending the weight to the bottom faster.

EXTREME RESISTANCE

Nylon twine is strong, durable and resistant to abrasion, acids, mildew and rot.
SPECIALTY FENDERS

FENDER CUSHIONS™

The only fender specifically designed for maximum protection when rafting or tying up against solid walls. Six molded tubes provide crush resistance, and the exclusive channel design lends itself to “hugging” the boat. Made from tough marine grade vinyl and featuring an inflation valve for air pressure adjustment, fender cushions may be hung vertically or horizontally. Comes in three sizes to fit all boats.

VERSATILITY

They make great piling cushions and are extremely comfortable as seat cushions.

CAUTION

Fender cushions must never be used as a life-saving device.

SQUARE LOW FREEBOARD FENDERS

The patented design of the square Low Freeboard fender holds the fender in position better and prevents it from rolling out of place. Shaped to protect the gunwales and rubrail, the Low Freeboard fender offers superior protection. Made from specially formulated tough marine grade vinyl and featuring an inflation valve for air pressure adjustment.

Lateral reinforcement to resist compression.

CLEARVUE® KEEL PROTECTOR

Designed and engineered by boaters for boaters. The patent pending extruded PVC part is built tough to withstand harsh outdoor service. The clear, 3M adhered backing will allow you to see any air pockets during installation, which cause a lack of adhesion. Additionally, channels and a center alignment feature molding directly into the part to help make installation easier and ensure proper adhesion to the keel of your boat.

- Form fitting design to wrap around the keel to ensure a perfect fit
- Increased contact with the body of the boat for maximum adhesion
- Protect against abrasion from sand, rocks, stones, and ramps

2” TUBULAR NYLON

With camlock valve for easy inflation or deflation.

HEAVY-DUTY SPRING ACTUATED VALVE

With camlock valve for easy inflation or deflation.

WELDED SEAMS

No glue to harden or breakdown.

PWC FENDER

Designed to custom fit the profile of most PWC’s. The tender bottom is shaped to “hook” under the bond flange for quick attachment. Flex areas on the fender provide a “hinge” action that allows the fender to conform to the shape of the watercraft. The PWC fender features an inflation valve for air pressure adjustment and includes a suction cup and securing line.
Sec.01 Fenders & Buoys

**SPECIALTY FENDERS**

**PONTOON FENDERS**
These unique fenders offer a level of protection to areas on the pontoon boat other fenders can’t provide. The Pontoon Fender is specifically designed to fit snugly between the pontoon and the deck of the boat, protecting both from rafting boats, docks, or other objects. All pontoon fenders are made from our own marine grade, UV resistant vinyl and have an integrated rubber football style valve for easy inflation. 9” W x 16” L.

#31030 White
#31035 Silver Mist
#31037 Aurora Gold

**FENCE SAVER**
The Fence Saver secures to the fence or railing and is designed to prevent contact to the delicate aluminum fencing. The Fence Saver is especially effective at preventing those nasty dings that occur when rafting a pontoon boat to a conventional hull boat. 9” W x 36” L.

#31032

**PONTOON CORNER-GARD**
The unique Corner-Gard offers a level of protection to areas on the pontoon boat other fenders or bumpers can’t provide. The Pontoon Corner-Gard comes shaped to mount on either radius style or 90˚ pontoon corners. The Corner-Gard mounts over the original factory installed aluminum corner section to provide air-cushioned impact protection when docking. Special silver PVC formulated to match the aluminum color of the boat and secures with the included stainless fasteners. 3” W x 12” L.

#31038

**PONTOON RAIL FENDER ADJUSTER**
Designed specifically for the 1” & 1-1/4” square tube rails of pontoon boats. Clamps securely yet can be repositioned easily. Allows for simple height adjustment for lines up to 1/2”.

#1138 4 pack fender adjusters
#11381 Table top merchandiser, 36 pcs.

**SOLID CONSTRUCTION**
Durable and resistant to chemicals and physical impacts.
Sec.01 Fenders & Buoys

SPECIALTY FENDERS

HULL-SAVER™ VINYL COVERED FLAT & CONTOUR FENDERS
All vinyl covered fenders and bumpers contain high-density closed cell polyethylene foam, covered in a tough UV resistant and tear proof vinyl/polyester tri-laminate blend covering. Corrosion-proof grommets make attachment easy for any application. Wraps vertically to protect gunwales and stows away easily.

PWC FENDERS
Designed to custom fit the profile of most PWCs. The fender bottom is shaped to "hook" under the bond flange for quick attachment. Flex areas on the fender provide a "hinge" action that allows the fender to conform to the shape of the watercraft. The PWC fender features an inflation valve for air pressure adjustment and includes a suction cup and securing line.

#1061 Black (44" x 19") Fits boat size 70 x 100
#1062 Black (44" x 20") Fits boat size 80 x 200

FREE MEGA FENDERS
These mega fenders are made from 40 oz. PVC that is specially coated for oil resistance. Reinforced with heavy-duty 60 oz. PVC to ensure the ultimate protection. All seams are heat and pressure welded. Lightweight enough for any crew member to handle easily. Delineates by simply opening the valve and rolling up the fender. These fenders can be relocated instantly by any one person! No more dragging huge fenders across the deck.

#FF4818B Black (48" x 18") Fits boat size 70’ x 100’
#FF5825B Black (58" x 25") Fits boat size 100’ x 200’

MODULAR FLAT FENDERS
Made from closed cell EVA, these fenders will not puncture or absorb water. Their flat design keeps them from rolling or riding up. They can be fastened together with our hook and loop strap to create a modular system. Easy to store, these fenders can also double as a life pad or seat cushion.

FENDER COVERS

PREMIUM FENDER COVERS

Our premium heavyweight fender covers protect your hull’s finish and help to prolong the life of your fenders. Made from 100% premium polyester knit fabric that is UV protected, abrasion and mildew resistant to hold up in the harsh marine environment. They are constructed to fit most fender styles and sizes. With proper cleaning your fender covers will last for many seasons. Washable in cold water and mild detergent. Sold individually.

FLEECE FENDER BOOTS

Finally, a fender cover specially designed to fit CRT™ (Center Rope Tube) style fenders. These will provide your boat with the ultimate in hull protection. No marring or color transfer to your boat. Constructed from 12 oz. Blizzard Fleece, these 100% polyester fender boots are available in blue or black and come with a reinforced grommeted top and an adjustable tie on the opposite end for a snug fit.

| #9031 Navy | #9036 Black – Fits Fender Size 8” x 20” |
| #9032 Black – Fits Fender Size 8-1/2” x 23” |
| #9033 Navy | #9037 Black – Fits Fender Size 10” x 26” |
| #9034 Black – Fits Fender Size 10-1/2” x 30” |

TRADITIONAL FENDER BOOTS

These fender boots are made from a knit fabric that hugs the fender for a close fit. The Neoprene sewn into the hem keeps the boot on your fender. Smooth polyester fabric resists picking up dirt and grit. Sold in pairs.

TIDY-UPS™ FENDER ADJUSTER KITS

The finest looking, top performing fender adjusters available. New Tidy-Ups™ Kits include one Tidy-Ups™ Fender Adjuster and six feet of 3/8” solid braid polypropylene rope. Made from high quality marine grade components, they are quick and easy to use. Simply snap adjuster over your lifeline, railing, or stanchion and set fender height in an instant. Polypropylene rope is color matched to your Taylor Made fender. Comes in 7 True Colors to best match your boat.

Match Taylor Made True Color Fenders

#1131 White | #1132 Blue | #1133 Black | #1135 Cranberry | #1136 Hunter Green | #1137 Navy | #1138 Sand
Finally a fender hanger for vertical rails! Made of tough nylon, this fender hanger attaches to rails 7/8” to 1” diameter with 2 screws and then grips the fender rope with its heavy-duty teeth making rafting and docking easier than ever.

Accepts rope size up to 5/8”.

#1099

Keep loose lines and power cords neatly in place. Durable PVC mounting band snaps over any rail, lifeline or stanchion. Snap the bottom section around your coil of rope or cord to secure. Measures 9-1/2” in length.

#1006

This easy to use Quick Knot® fender hanger allows the quick placement of fenders anywhere there is something to tie off to without having to tie a knot. The rope is threaded through the Quick Knot’s heavy-duty molded nylon system, hanging the fender quickly and securely. No need to waste time with cumbersome and unsecured knots. Perfect for 1/4” rope.

#1098 (4 per pack)

Fits all standard 1” or 1-1/2” railings for Taylor Made stainless steel fender racks

#32191

Injection molded polyethylene clips that mount securely to your 7/8” railings.

#1101

Quick and simple. These fender adjusters simply snap over your lifelines or railing and are ready to use.

• Holds lines up to 5/8” in diameter

#1015 White Vinyl Standard Rail Size
#1016 Black Vinyl Standard Rail Size
#1018 White Vinyl Large Rail Size

Quick and simple. These fender adjusters simply snap over your lifelines or railing and are ready to use.

• Holds lines up to 5/8” in diameter

#1220 Fits 1/2” to 2” Rails
#1210 Fits 7 to 11/4” Rails

Quick and simple. These fender adjusters simply snap over your lifelines or railing and are ready to use.

• Holds lines up to 5/8” in diameter

#1015 White Vinyl Standard Rail Size
#1016 Black Vinyl Standard Rail Size
#1018 White Vinyl Large Rail Size

Quick and simple. These fender adjusters simply snap over your lifelines or railing and are ready to use.

• Holds lines up to 5/8” in diameter

#1220 Fits 1/2” to 2” Rails
#1210 Fits 7 to 11/4” Rails

Quick and simple. These fender adjusters simply snap over your lifelines or railing and are ready to use.

• Holds lines up to 5/8” in diameter

#1220 Fits 1/2” to 2” Rails
#1210 Fits 7 to 11/4” Rails
FENDER
ACCESSORIES

TWIN ENGINE PORT & STARBOARD KEYCHAIN FLOATS

Keep your keys afloat with our red and green port and starboard mini fender keychain floats. Quickly identify your port and starboard engine ignitions with the bright red (Port) and neon green (Starboard) keychain fenders. Simply loop the strap over any size rail or lifeline and pull strap through buckle to desired length. Slide tab into release buckle until you reach the tightness around your rail or lifeline that you desire.

#1020

RAIL FENDER HANGER

Made from injection molded, high impact and UV resistant nylon. This unique design makes it easy to adjust fender height and locks in place with a jam cleat – no knots. Uses 1/4” to 1/2” line. • Finger tip adjusting • No moving parts

#1020 - Fits up to 1” rails
#1120 - Fits up to 1-1/4” rails

#1108 - Table top merchandiser (36 pk.)

#1094

BIG 8™ FENDER HANGER

Designed for use on Taylor Made fenders with 3/4” ID tubing. May be used in other brands, but due to variation among brands the consumer must verify a tight fit between the tube and product for proper function (center tube must be small enough to keep the product halves firmly together). • Injection molded reinforced nylon • Vented to prevent water accumulating in fender tube • Fits 3/4” diameter rope

#1085 - Solid/three per pack
#1105 - Table top merchandiser (36 pk.)

#1005

RAIL/LIFELINE FENDER BRACKET

• Injection molded polyethylene clamp brackets mount securely to 3/8” to 4” rails or up to 4” lifelines • Double locking clamp design provides for a quick and easy fender height adjustment • Use on 1/4”-5/16” rope • Sold in pairs

#1107

#1009

STEEL FENDER LOCK

Traditional Stainless Steel Fender Lock • Accepts rope sizes up to 1/4” • Available with fixed or adjustable height adjustment peg only • One lock and peg • Extra peg • Adjust 1/4”-1/2” rope • Sold in pairs

#1010

#1015

TRADITIONAL STAINLESS STEEL FENDER LOCK

A larger version of our best selling 100 fender lock. Stainless steel construction, adjustment peg and fastening screws ensure many years of dependable service in the harsh marine environment. The “one-way” locking peg provides secure and reliable mounting and allows the use of up to 1/2” diameter rope. Mounting hardware included. Sold individually.

SUR-MOOR® MOORING BUOYS

SUR-MOOR® T3C™ MOORING BUOY

Sur-Moor® hard skin mooring buoys have a seamless and tough, one piece polyethylene shell. Hard skin shells feature ultraviolet light absorbers for long-term life under the sun, and have a sandblasted finish which allows the buoy to be easily painted for identifying. Filled with closed cell foam to positively displace water. Tube-through-the-center design allows the anchor chain to pass directly through the buoy, allowing you to attach your boat to the top of the buoy. Hardware not included.

SUR-MOOR® SHACKLE BUOY

The top center design has a built-in cup shape at the top of the buoy that allows the anchor shackle to nest below the buoy surface. This recessed area helps shield the shackle from contacting the boat hull while making a convenient nesting place for the pendant line when the boat departs from the mooring. Hard skin shell now has a sandblasted finish which allows the buoy to be easily painted for identifying. Tube-through-the-center design with blue reflective striping. Hardware not included.

SUR-MOOR® TAPER BUOY

The Sur-Moor® taper shape design places more flotation area at the waterline creating a higher visibility mooring. The hard skin polyethylene shell is UV protected to resist the weathering effects of sunlight and is foam filled to positively displace water. Available in the tube-through-the-center design with blue reflective striping. Hardware not included.

TRADITIONAL SUR-MOOR® MOORING BUOY

• Hot-dipped galvanized steel hardware included
• Blue stripe is reflective for nighttime visibility
• Sandblasted finish allows the buoy to be easily painted for identification

BUOYANCY RATING

The number indicated in the maximum flotation the buoy provides while fully submerged. 50% of this value will be the weight the buoy can support at the level of the blue stripe.

WARNING

Mooring lines must never be tied to the top boss. Mooring lines should always be attached to the anchor shackle.

NEW IMPROVED DESIGN

SUR-MOOR® BUOYS

MAST BUOYS

• Perfect as a pick-up buoy and ideal for all diving applications
• Newly designed 5/16” diameter pultruded fiberglass mast with PVC outer layer adds strength, flexibility and prevents fiberglass shards from being exposed
• Float is sealed urethane foam - provides great flotation and years of service
• Corrosion resistant HDPE (high density polyethylene) coated cast metal weight that will not scratch or mar your boat’s finish

SULLY STICK® WINTER STICK

A long tapered buoy used in place of a standard round mooring buoy during the winter months. The Sully Stick is closed cell foam filled to positively displace water. The base eyelet is reinforced with a galvanized metal bushing to attach a rope and connect to the anchor chain. The shape of the Sully Stick helps it escape ice entrapment better than a round buoy and can extend the useful life of a mooring buoy by protecting it from the damaging effects of freezing temperatures.

T3C™ MOORING COLLAR

Hot dip galvanized steel collar protects your T3C buoy from anchor chain wear, prolonging the life of the buoy. Designed to work in combination with standard shackles. Mooring collars are sized to slip into the top of 2” or 2-1/2” tube diameters.

BUOY HARDWARE

1/2” diameter hot dipped galvanized rod with 4” long seized, 2 galvanized washers and nylon core lock nut.

#33547 Seized only
#33032 12” #33035 15”
#33038 18” #33042 24”
SUR-MARK™ Buoys

SUR-MARK™ and Sur-Mark™ II regulatory buoys are molded from tough UV protected polyethylene, and are closed cell foam filled to positively displace water. One-piece seamless construction, internal concrete ballast, recessed galvanized eye; both styles stand upright for storage. Color labels and solar LED warning lights (sold separately) fit both styles. Chain and hardware not included.

THREE-YEAR FLOTATION WARRANTY ON ALL HARD SKIN BUOYS

SUR-MARK™ MARKER BUOYS

Taylor Made manufactures the most rugged and complete line of navigational buoys in the United States. We have been meeting the stringent requirements of states, municipalities, and private harbors for many years. Our buoys are used in the toughest applications. Regulatory buoys feature rotationally molded high density polyethylene shells that are UV stabilized. The rotational molding process allows for uniform wall thickness without the internal stresses that cause cracking over time and under extreme temperature changes. This process imparts tremendous impact strength to the shell.

SOLAR LED WARNING LIGHT

- Solar powered light charges during the daylight hours and automatically turns on at dusk to alert boaters of hazards
- Easily attaches to buoys, docks, moorings, or anything else that needs nighttime identification with 1/4" diameter hardware
- Designed to fit on top of Sur-Mark™ Buoy #46104. Well nuts are recommended for buoy mounting
- Lights come equipped with three flash modes built in (15, 30, 60 flashes/minute)
- Unit is constructed with a tough, waterproof (not submersible) plastic housing to keep the light working in all conditions
- Replaceable AA NiMH batteries (2 per light)

NOTE: Check with local agencies governing your waterway before installing.

SUR-MARK™ BUOY LABELS

- Fade resistant, self-adhesive vinyl marker labels
- Brightly colored for high visibility
- Two labels required per buoy (sold in pairs). Orange tape not included
- Each label is 1/2" wide x 24" long to fit either Sur-Mark™ or Sur-Mark™ II
- 5-year warranty against weathering or fading

NOTE: Check with local agencies governing your waterway before installing.
MOORING WHIPS

STANDARD & PREMIUM MOORING WHIPS

Mooring whips are a safe way to protect your boat against costly dockside and seawall damage. The Mooring Whip system pulls your boat a safe, convenient distance away from the dock, thereby protecting it from the damaging forces of waves, wind, tides and wakes. Mooring Whips are made of high quality, solid fiberglass poles, aluminum-magnesium base units, tips, and mooring whip lines. Each set comes complete with all of the hardware necessary for installation. Sold in pairs.

STANDARD MOORING WHIPS

Standard mooring whips are equipped with fixed angle bases with a 60˚ angle, 13/16” diameter fiberglass pole and are most commonly used for ski boats, runabouts, center consoles, and bass boats.

PREMIUM MOORING WHIPS

Premium Mooring Whips are equipped with unique rocker arm bases that return the whip poles to the vertical position when not in use and 1” diameter fiberglass pole. These are ideal for sailboats and larger, heavier or high profile boats.

Tips allow your boat to return to the dock effortlessly when you want to board.

DESIGNED FOR:
• Fresh or salt water use • Moderate wake areas

DESIGNED FOR:
• Salt water use • Large tidal areas

NOTE: When determining whip model weight is more important than length. Some docking conditions may be too rugged for this product.

BOATGUARD® MOORING WHIPS

Taylor Made now provides a more economical way to protect your boat in higher wake areas. Designed with the same tough standards as our fixed base and our premium Mooring Whips, these new whips provide the “safety zone” between dock and boat for many types of docking applications. Taylor Made uses a large 3/4” diameter, solid fiberglass pole that withstands rugged environments and provides spring action to keep your boat safely away from the dock. CAD designed whip base is injection molded from high impact reinforced plastic for incredible strength and durability. Sold as pairs and include all lines and hardware to complete the installation.

### LIFE RINGS

**LIFE RINGS**

Inspected and tested in accordance with U.S. Coast Guard regulations. Rings contain uncellular polyurethane foam for buoyancy. Floating polyurethane grab lines contain UV stabilizers to enhance sunlight resistance. Rings feature Sewn in becket to secure grab line. Choose between energy absorbing vinyl skin or tough hard shell polyethylene skin. SOLAS approved models equipped with reflective tape.

- Vinyl skin life rings can be painted or numbered with excellent adhesion.
- For both recreational and commercial use
- Most durable life ring on the market
- Vinyl skin is more puncture resistant and less likely to tear or scuff

**ALL LIFE RINGS MEET USCG APPROVAL**

**FOR BOTH RECREATIONAL AND COMMERCIAL USE**

### LIFE RING STATION

Rugged polyethylene case houses one 24” ring. Ring station permanently locates life ring and protects ring from constant weather exposure. Bright yellow color for high visibility. Clear vinyl cover quickly detaches to access life ring.

- #700001: Life ring station
- #700005: Life ring station - replacement vinyl cover
- #700004: Life ring station (w/ 4’ cover ring)
- #700003: Life ring station (w/ 5’ cover ring)
- #700001: 38” yellow poly rope (w/ 50)
LIFE RING ACCESSORIES

STAINLESS STEEL LIFE RING HOLDER
These stainless steel holders will mount on any 7/8” or 1” railing or stanchion. Elastic cord holds your buoy securely.
#2013

LIFE RING “J” HOOKS
Stainless steel “J” hooks designed to hold ring buoys up on any wall, fence, wheelhouse, etc. Mounting screws not included.
#2016

ECO BLAST™ RECHARGEABLE AIR HORN AND KIT
Just pump in new air. The refill valve of the Eco Blast air horn lets you recharge using a Taylor Made® Mini Air Pump or any bicycle pump, service station air pump or air compressor. In seconds, Eco Blast is ready to emit a powerful 120 db signal that meets all USCG requirements. Eco Blast beats out chemical horns, too, because it operates in all weather and temperature extremes. Plus, with Eco Blast there’s no worry about a potentially harmful chemical escaping into the environment.
#616 Eco Blast – horn only
#618 Eco Blast kit – with air horn and hand pumps

LIFE RING/BUOY LETTER KIT
Now you can customize your life ring with our Taylor Made Lettering Kit. Package includes 2” black letters and numbers (4 ea.) plus symbols. Constructed from waterproof marine grade 4 mil vinyl, resistant to fuel, chemicals, fading and scratching. Application template included.
#600015

DECORATIVE RING BUOYS & ACCESSORIES

ECO BLAST™ MINI AIR PUMP
Our versatile Mini Air Pump is always handy to have around. Use it to quickly refill your Eco Blast Rechargeable Safety Air Horn, or to inflate boat fenders, bicycle tires, rafts, water toys and more. The Mini Air Pump comes with two interchangeable valves for adaptability and generates up to 100 psi of pressure. Easy to use, stores anywhere.
#617

DECORATIVE RING BUOY
• Spruce up your pool or spa area
• Rings are constructed from waterproof nonabsorbent closed cell foam
• Comes equipped with Sewn in polypropylene grab lines and decorative blue bands
• Don’t forget to customize your ring buoy with our life ring letter kit
• Available in 3 popular sizes
#371 17” ring (beoth/blu)
#372 20” ring (white/blu)
#373 25” ring (beoth/blu)

DECORATIVE RING BUOY WITH HEAVING LINE
• Ring holder is constructed from anodized aluminum
• Fits all sizes of ring buoys
• Comes complete with 30’ or 60’ mildew resistant, white, UV polypropylene, floating heaving line with attached rope float
• Float also sold separately for use with swim area floating ropes or nets
#374 Ring Buoy Holder w/30’ heaving line
#375 Ring Buoy Holder w/60’ heaving line

ROPE FLOATS
• Painted to provide UV protection and to help resist weathering
• Designate swim areas in pools, lakes, oceans, etc. Can also be used for ski ropes, anchor lines, marker buoys and crab traps
• Accommodates rope up to 3/8” diameter
• Approximate buoyancy is 2 lbs.
• Floats measure 2-3/4” x 5-1/4”
#376 Red/white float
#377 Yellow float
#378 Red float

RING BUOY HOLDER WITH HEAVING LINE
Accommodates rope up to 3/8” Diameter

DECORATIVE RING BUOYS & ACCESSORIES

CAUTION
DECORATIVE USE ONLY. NOT A LIFE SAVING DEVICE
STOW ‘N GO™
FIBERGLASS DOCK BOXES

With a durable UV gelcoat finish and stainless steel lockable latch and hardware, these fiberglass dock boxes are built tough. These fiberglass molded dock boxes are constructed with a solid foam core that contains no trapped air making it more resistant to absorb water and odors. A double glass layer resists cracking and adds strength in critical areas where hardware is attached.

Gas shocks help to keep your lid open on rocking docks and in higher wind areas and allow for a slower, more controlled closing.

**STANDARD DOCK BOXES**
Provides a large rectangular space in which to store all your boating needs (2 shocks installed).

**LOW-PROFILE DOCK BOXES**
Built for large boats or docks. (1 shock installed)

**TOP SEAT DOCK BOXES**
Seat built in to lid for added function

**SPACE SAVER TRIANGLE DOCK BOX WITH ELECTRICAL INSET**
The Taylor Made Space Saver electrical inset dock box design allows the box to straddle the water over any 90 degree, such as two adjoining docks. The electrical inset is designed to accommodate electrical power units like Eaton™, Ensign™ and other popular suppliers.

Electrical Inset compatible with:
Eaton: Newport Harbor Mate Box
Ensign: Dock Box Power Center

#83503 Measures: 34-1/2”H x 51-3/8”W x 28”D
Recess area measures approx: 14”D x 17”W x 26-1/8”T

**FISHERMEN’S DOCK BOX**
New to our line of dock boxes comes the ideal fisherman’s storage dock box. This box has all the features and benefits of our standard fiberglass dock boxes with the addition of rod holders installed on the underside of the lid. This added feature is a great way to keep your fishing poles stored and easily out of the way of all your other boating gear. Easily accommodates poles up to 7’ long.

#83560 Extra Large 24” H x 98” W x 32” D

**PNEUMATIC LID LIFTS (1 PAIR)**
Fits all models except #83560, uses #8190

**SMOOTH INTERIOR SURFACE**
Easy to clean and has no stray glass fibers that can cut

**GAS SHOCKS**
Standard on all models

**LATCH & HINGES**
Made from heavy-duty stainless steel

STOW 'N GO™ DOCK & PATIO STORAGE BOX

The Taylor Made Dock & Patio Storage Box is a durable polyethylene box that’s perfect for your dock, pool or patio. It offers a secure place to store just about anything from life jackets and fishing supplies to cushions and pool accessories. Our boxes are manufactured with the highest quality UV resistant polyethylene resin and are 100% maintenance-free. The double-walled lid is secured with a stainless latch, creating a weatherproof design to ensure your contents remain protected and dry.

STANDARD COLORS

CLASSIC WHITE

SANDSTONE

VERSATILE

The perfect storage box for your dock, pool or patio

TRIANGLE DOCK BOX

Our triangle dock box is designed to accommodate most electric power units. Triangle shape allows the unit to fit snugly in the little gusset found on most docks.

#123661 Classic White 50”L x 32”W x 36”H
Recess area measures: 6”D x 11”W x 24”T

DOUBLE-WALLED LID

Ensures contents stay safe and dry

STEPSAFE™ DOCK STEPS

Molded in durable UV resistant polyethylene, our dock steps are offered in three different tread step models. On the top of each step, our StepSafe™ non-slip pad is adhered for additional slip protection while boarding. 1-1/2” wide flange provides adequate mounting surface for docks. Cleans easily with soap and water. Additional handrails are available for two and three step models, sold separately. Maximum weight up to 300 lbs.

NON-SLIP PAD

Additional protection while boarding

UV RESISTANT POLYETHYLENE

Durable material holds up in the harsh marine environment

STEPSAFE™ NON-SLIP PAD

StepSafe™ will retain its grip wet or dry and is resistant to gas, oil, and UV rays. Also great for the pool area, aluminum ladders or any surface where slipping is a concern. Comes with a pressure sensitive backing for easy installation and trims easily with scissors to almost any size and shape. Use on gunnels, swim platforms, stair rungs, transoms or anywhere you step and could slip!

#11990 Cut size: 3-1/2” x 14-1/2”
12 pack master comes pre-packaged clipped on a clip strip
DOCK PRO®
VINYL DOCK EDGING

HEAVY-DUTY DOUBLE MOLDED PROFILES

Double molded vinyl dock edging is molded twice and then molecularly bonded for extra durability and protection. A tough inner core is surrounded with our soft white vinyl for extra cushion against tough docks. Each piece installs easily to the edges of docks, piers or floats with screws or nails. Available in our four most popular profiles and a full range of lengths.

COMMERCIAL GRADE DOUBLE MOLDED PROFILES

Added to the line of heavy-duty double molded PVC dock edging are three commercial grade profiles. Dock builders, marinas and even a few larger boat owners asked for profiles with heavier wall sections to provide greater protection for their applications. Made from the same quality marine grade resins and with the same double molding process as our other products.

ECO FRIENDLY
HD DOUBLE MOLDED AND COMMERCIAL GRADE EDGINGS ARE MADE FROM 85% RECYCLED MATERIAL

NAILS

Stainless nails are 1-1/4" #12 nails with ring shank. Galvanized nails come with a washer. (1/8 lb. pkg. – 12 per strip)

#96028 1/8 lb. #6 galvanized
#95999 1/2 lb. stainless

THE "WAVE"

The "Wave" shape is 1/4" x 5” wide. This profile is a heavy-duty PVC strip that is designed to completely cover the sides of your dock. Form this flexible extrusion into a "wave" or loop shape and nail it down. By doing so, you create a bumper grid with superior shock absorbing and protective ability. The "Wave" is available in a 25 ft. coil and comes complete with mounting nails. 25 ft. coil will protect approximately 18 ft. of dock space.

90° VINYL CORNER BUMPER

Made from the same tough PVC as our dock extrusions, this 90° Corner (outside) will protect your boat from this critical point. Inside structural ribs provide the impact resistance you need while its flush fit side sections give your installation a "finished" appearance. The 90° cut fits flush with the large Commercial Grade P-Shape.

THE "WAVE"

This heavy-duty commercial grade profile includes heavier wall sections and reinforcing ribs, ideal for dock builders, marinas and even owners of larger boats – providing the extra protection required for these applications.

#45970 10' coil

This versatile extrusion can be mounted both vertically and horizontally to nearly all dimensional lumber sizes. It has been designed to function either as a side guard profile or as an edge guard for light-to-medium-duty applications.

#45973 10' coil

Traditional P-Shape for light-to-medium-dock edge applications. Lightweight, easy to install and provides excellent protection for your boat.

#45971 10' coil

Integrated within the standard P-Shape profile is a solar powered LED light rope.

• 4.5V 2.5W solar panel
• White LEDs spaced about 2” apart
• Replaceable lithium batteries
• 6 ft. lead from panel to light allows for higher installation on posts or pilings
• Lighting time up to 12 hours with full charge
• Now available with installed LED lighting

#45972 10' coil w/lights
#46302 10' LED rope lights

This Standard P-Shape and Premium Side Gard profiles have the same great qualities as our heavy-duty and commercial grade double molded profiles to give you the extra durability and protection you need dockside. Installs easily with screws or nails.

#45992 White 10' coil

Taylor Made is adding to its line of protective dock edging. The first dock edging made entirely of clear PVC, allowing the natural beauty of a wooden dock to stand out. We’ve taken our most popular profiles, suitable for a wide variety of docking applications, and made them clear. They still have all the great properties of the existing line in providing unparalleled protection for your boat, non-marring – holding up to UV and mildew but now you don’t have the typical white or black strip along the dock. Also, because the PVC is clear, we’re offering Standard P-Shape edging that includes an interior mounted solar powered LED rope light. Patent pending.
Taylor Made is adding to its line of protective dock edging. It is the first dock edging made to match the aluminum docks that are becoming more popular. We’ve taken our most prevalent profiles – suitable for a wide variety of docking applications – and made them silver. Using our True Color® technology we can color match aluminum docks in any setting. They still have all the great properties of the existing line in providing unparalleled protection for your boat – non-marring, holding up to UV and mildew – but now you don’t have to use the typical white or black on your new aluminum dock.

STANDARD DOCK BUMPERS
Taylor Made offers a line of EPDM rubber edging for docks and piers. EPDM rubber is designed to withstand the harshest of environments and is soft enough to cushion your boat from the dock or pier. At 70 durometer, this new premium line of dock edging starts softer than vinyl, and stays flexible when exposed to UV rays, offering uncompromising longevity.

**D-PROFILE**
A convenient way to protect the edge of the dock. Not only easy to install, but it also fits snugly around the radius of the dock corners.

- #96000: 6' length - small
- #96001: 6' length - large
- #96007: 6' length - small retail package
- #96008: 6' length - large retail package

**P-PROFILE**
The "P" profile is designed to attach to the top of the dock and wrap around to also protect the side of the dock.

- #96040: 6' length

**TOP-SIDE PROFILE**
This edging offers protection for your boat right where you need it most. The Top-Side profile not only covers the side of the dock, it protects the top as well.

- #96036: 6' length

**HEAVY-DUTY SIDE PROFILE**
Specially designed edging can be used as side protection for docks or for vertical protection on pilings.

- #96037: 6' length

**CORNER GUARDS**
Made from the same great rubber material as our dock extrusion. Use with our dock strips for complete protection.

- #96008: 3/4" x 6" corner
- #96009: 3/8" x 6" corner

**CHAFE GUARDS**
Made from our strong, abrasion resistant rubber. Slides through chocks to protect your lines. Sold in pairs. Measures 14" long.

- #96023: for 1/2" to 5/8" lines
- #96024: for 3/4" line

**SCREW IN TIPS**
Non-marking rubber tips are great for use on deck chairs, boarding ladders, boat hooks, etc. Sold in packages of 4 tips.

- #96024: fits 7/8" tubing
- #96025: fits 1" tubing
- #96026: fits 1-1/8" tubing

**RUBBER SPREADER BOOTS**
Fits quickly and easily over the stay and spreader end. Protects the rigging connections.

- #96020: Small
- #96021: Medium
- #96022: Large

**SYNTHETIC RUBBER**
In went to the finish and very durable. Made from our strong, abrasion resistant rubber. Slides through chocks to protect your lines. Sold in pairs. Measures 14" long.

DOCK & POST BUMPERS

- Available in multiple bumper profiles up to 50’ in length to fit your exact needs
- Polyester textile cover and closed cell foam inner cushion, not vinyl, PVC or rubber
- Male/Female connection ends available with volume orders
- Cleans easily with liquid soap and a brush
- Flexible enough to mount on curves or around corners
- Will not deteriorate in the sun or mar your boat
- Flexible tab (“fold-over” system) allows standard top of dock or unique fold-over mounting which conceals the top row fasteners

**PERIMETER™**

**DOCK & POST PRODUCTS**

**CORNER BUMPERS**

Although most Perimeter Dock & Post Bumpers are flexible enough to mount around curves, our customers have requested standard corner bumpers to create a finished, quality look to the 90° outside corner of the dock. Our corner sections are designed to match up perfectly with our medium, large and x-large dock bumpers and extend 12” along each side of the dock from the corner point. Mounting flanges are incorporated both top and bottom for secure installation.

**REMOVABLE POST BUMPERS**

Made out of the same high-quality materials as our Dock and Post Bumper, Perimeter Removable Post Bumpers come equipped with polyester webbing (53” long) and a heavy-duty Derlin buckle system that allows for a quick, easy and secure installation. Simply wrap the webbing around the piling, snap the buckle and pull tight. When you’re ready to depart, simply unbuckle and stow away.

- Protect your boat at unfamiliar or unprotected docks
- Stays in place better than fenders
- Great for temporary docking or portable docks

**PERIMETER® Industries**

Sec.03 Dock Products & Lighting
PERIMETER® PRODUCTS

GUNNEL GUARD
Flexible cushion and tabs allow for easy attachment with screws and washers. Larger sizes commonly used for work boats, launches, and other heavy-duty applications. Sold by the foot or in 50' self-dispensing display boxes.

- Polyester covered, not cotton canvas
- Wears over 10 times longer than similar products
- Won’t rot in the sun or mar your boat
- Perfect for whalers, dinghies, and swim steps

GUNNEL GUARD

PERIMETER® LIFELINE CUSHIONS
Inner cushion provides a comfortable yet sturdy backrest. Simply thread your lifeline through the center of these polyester-covered foam cushions. Blue lifeline cushions use a Sunbrella® cover which will match your sail covers.

- Make your lifelines a better backrest
- Polyester covered, not bare foam
- Won’t discolor, fade or rot in the sun
- Cleans easily with liquid soap

PERIMETER® LIFELINE CUSHIONS

RECOMMENDED ATTACHMENTS
To best install your Gunnel Guard, drive self-tapping (or self-drilling for fiberglass) 1/2" stainless steel #6 Phillips screws with stainless finishing washers through each tab every 3" to 4".

REMOVABLE CHAFE GUARDS
Ideal for anchor lines, power cords and pre-spliced eyes
- Polyester hook & loop fasteners provide easy and secure installation
- When you can’t use a permanent installation

CHAFE GUARDS
Superior abrasion resistance. Standard sizes sold in pairs with UV-resistant ties to secure installation.

- Prevent wear and tear on your mooring and dock lines
- Don’t lose your boat in a storm due to lack of a chafe guard
- Easily fits through chocks, will not split or rot in the sun
- Polyester textile, not PVC, vinyl or rubber

DOCK PRODUCTS

DOUBLE BRAIDED NYLON DOCK LINE

- Wrapped bittor end
- Always flexible – stays soft and easy to handle throughout its life
- Splined eye end – much stronger than a knot
- Resistant to oil, grease, gasoline, mildew and most chemicals
- Will not rot – allows for storing wet or dry
- Great for dock lines, anchor lines, or mooring lines

RECOMMENDED ROPE DIAMETER GUIDE

- Use this chart to help choose the correct line diameter. If your boat is located in a windy area or in an area that often experiences rough sea conditions, it is a good idea to choose the next bigger line diameter. Bow and stern lines should be two-thirds the length of your boat. Spring lines should be as long as your boat.

- Inflation valve to adjust firmness
- Bumper measures 7” diameter x 17” long.
- Post Bumpers are great protection for pipe-supported type docks. Protects the boat from contact with the metal dock pipe and hardware at dock level. Easily slides over 1-1/2” dock pipe and rests securely against the dock. Made from marine grade vinyl with an inflation valve to adjust firmness. Bumper measures 7” diameter x 17” long.

DOCK PRO® INFLATABLE DOCK WHEELS

- Smooth rolling wheels offer substantial dock cushioning and feature molded in valves to adjust the level of firmness.
- Heavy-duty hot-dipped galvanized hardware mounts securely to the dock.
- 1/2” and 3/4” wheels use a large 2” diameter axle housing for maximum strength. 3-year warranty.

DOCK CUSHIONS

- Hybrid construction means soft compressible foam where you want it and tough high density foam where you need it. The inner core of the new foam bumper is a lower density EVA foam (18.9 pounds per cubic foot) and the outer (front and back) pieces are tougher, higher density PE foam (67 pcf). UV protected foam material is maintenance free, non-marring and provides superior cushioning from impact. Designed for both horizontal and vertical applications. Dock Cushions are pre-drilled and ready to mount.
- LED Lights now available. Can illuminate for 8 hours after full sunshine charge.

ACRYLIC DOCK WHEEL COVERS

- Specifically designed to fit over our Dock Pro Inflatable Dock Wheels. Constructed from 100% heavy-duty loop knit acrylic.
- Covers are UV abrasion and stain resistant and will help prevent grime and dirt on your dock wheel. Heavy-duty Sewn in draw string and barrel lock ensure a custom fit.

DOCK PRODUCTS

DOCK PRO® HEAVY-DUTY VINYL DOCK BUMPERS
Taylor Made now offers the ultimate in versatile, durable docking protection! Dock Pro® Heavy-Duty Vinyl Bumpers are ideal for rough conditions and can take a beating. Made from UV resistant, marine grade vinyl, they provide excellent protection for your boat and dock. Straight piece can be mounted horizontally, or the curved back panel allows for vertical mounting on pilings. Corner piece provides superior impact protection on dock corners. Both bumpers have inflation valves for easy adjustment to desired firmness. Pre-drilled for easy, permanent mounting with plated fasteners.

DOCK PRODUCTS

DOCK PRO® DOCK CART
Curved handle design reduces bending over, making the Dock Pro® Dock Cart easier to handle than conventional carts, while the unique angled-tub feature provides better leg clearance for maneuvering. The Dock Pro® Dock Cart, with its maximum load capacity up to 300 lbs., is simply the easiest way to carry all your gear from the car to the boat. Features a spacious 7 cu. ft. (67"L x 23"W x 13"H) heavy wall roto-molded poly-tub that will not rust or rot. Zinc-coated, corrosion resistant hardware used throughout. Plastic rim wheels with roller bearings will stand up to the harshest marine environment.

DOCK FLOATS
Seamless, UV resistant black polyethylene shell filled with EPS foam. The tough outer shell resists impacts and protects the foam core from saltwater, gasoline and most chemicals. Thick mounting flange can be drilled to accommodate attachment fasteners for easy mounting to any dock design. Constructed with ventilation holes that let air in and keep water out. 8 year flotation warranty.

NEW FLAT-FREE TIRE DESIGN
Made of solid polyurethane, yet has the soft feel of an air-filled tire.  

MINIMUM RECOMMENDED MOUNTING HARDWARE:
- 3/8" x 3" large lag screw
- 3/8" washer & 5/8" washer American National Standard Type A plain washers (series W)
The Taylor Made Oil-Free D-Icer™'s oil-free design is more environmentally friendly and energy-efficient than the competitor’s oil-filled units. The high-efficiency, oilless motor runs at higher RPMs which moves more water faster. It also runs cooler and uses fewer watts. Avoid those unexpected and costly dock repairs by making the smart choice.

**TAYLOR MADE OIL-FREE D-ICER™**

- **New oil-free design** – no chance of oil leaks polluting our environment
- **Vortex shroud design** reduces damage from debris and directs flow for improved ice elimination
- **One-piece plastic design** for easy maintenance and corrosion protection
- **D-Icer can be converted to an aerator or fountain**
- **Up to 50% more energy-efficient than oil filled brands** – costs less to operate

**D-ICER ACCESSORIES**

- **Thermostat Control**
- **Replacement Zinc Anode**
- **Replacement Propeller**

**DOCK LIGHT**

The ClearVue® Dock Light can be mounted to any flat surface, making it ideal for docks, decks or walkways. It features four ultra-bright warm white LEDs and a user replaceable AA NiMH battery. The clear plastic lens ensures durability while still allowing the solar panel to properly charge, allowing for 8 hour run times after a full charge.

**SQUARE POST LIGHT**

The ClearVue® Square Post Light is specifically designed to mount on the top of a 4”x 4” post. It features four ultra-bright warm white LEDs and a user replaceable AA NiMH battery. The clear plastic lens ensures durability while still allowing the solar panel to properly charge, allowing for 8 hour run times after a full charge.

**SIDE POST LIGHT**

The ClearVue® Post Light is a unique and elegant solution to down lighting. Simply mount the light to any post and the light will provide a pool of light at the base of the post, where you need it. It features three ultra-bright warm white LEDs and a user replaceable AA NiMH battery. The clear plastic lens ensures durability while still allowing the solar panel to properly charge, allowing for 8 hour run times after a full charge.

- **LED LIGHTING**
Sec.03 Dock Products & Lighting

**MOTION SENSOR POST LIGHT**
Light turns on automatically at sunset. Light is constantly on at dim light (3LM) then brightens (30LM) when it senses motion.
- User replaceable lithium 18650 battery

**DOCK LIGHT**
These surface-mount solar lights automatically provide 8 hours of bright light each night—even after a cloudy day. Their innovative lens design directs the light at the dock, piling or post where it is needed for safety and visibility. Includes a replaceable AAA size NiMH battery. Waterproof and shock resistant.
- Glow white, blue or green

**RECESSED WIRED LIGHT SET**
Recessed lights drop down into a 1” diameter drilled hole to give a clean flush look. Each light is constructed from a stainless steel bezel and a plastic, fully potted body. The solar panel can be positioned remotely, thanks to the 2 meter long lead. The lights are separated by quick disconnects, to make install easy, at a distance of 1.5 meters each.
- 3 AA NiMH user replaceable batteries
- Lights measure approximately 1-5/8” diameter
- Two extension packs can be added, running a total of nine lights off one solar panel

**SURFACE MOUNTED LED LIGHT SET**
The same style and function of our recessed wired light set, but with no holes to drill. This surface mount light is only 1” tall and the side mounted wires allow for a clean appearance.
- 3 AA NiMH user replaceable batteries
- 3 light extension pack available
- Two extension packs can be added, running a total of nine lights off one solar panel

**ALUMINUM DOCK LIGHT**
This industrial strength, solar powered dock light is made from anodized aluminum for superior weather resistance. Super bright LEDs, powerful solar panel and changeable AA NiMH batteries provide all night illumination. Low-profile design is perfect for docks and marina applications to provide ambient pathway and dock lighting. Added built in reflectors provide extra safety for passing boaters and make them ideal for marking swim rafts.
- Easy hassle-free mounting – no wires
- IP68 waterproof design

**SURFACE MOUNTED LED LIGHT SET**
Light turns on automatically at sunset. Light is constantly on at dim light (10LM) then brightens (135LM) when it senses motion.
- 3 color choices with a push of a button
- Bright white, blue & green

**SOLAR LED DOCK LIGHTS**
Solar powered dock light can be easily attached to any flat surface with two 1/4” screws. The lights charges during the daytime and automatically turns on at dusk. Features four super-bright white LEDs, with a clear plastic housing that offers 360˚ illumination. Now includes four rubber feet for movable, non-permanent installations.
- Waterproof
- Shock resistant
- 1-1/2” H x 5” diameter

**SOLAR LED DOCK & DECK LIGHTS**
- 3 colors built in with a push of a button
- 3 LEDs illuminated simultaneously
- Auto on/off at dusk and dawn
- Waterproof for heavy rain, wind and snow
- Replaceable AAA NiMH rechargeable battery
- No wiring needed
- Installs in minutes

**3 COLORS BUILT IN WITH THE PUSH OF A BUTTON**
- BRIGHT WHITE, BLUE & GREEN

**3 COLOR CHOICES**
- WHITE TO CANDLELIGHT TO BLUE
Sec.04 Marine Furniture

Platinum Series

REPLACEMENT PONTOON FURNITURE

Our well-versed engineering, R&D and testing labs consistently provide the highest quality products as we continually introduce new innovations to the market. Taylor Made is vertically integrated; our ability to fabricate, coat, roto-mold and upholster our various furniture lines has helped us build a world-class offering for today’s boat builders. Whether you are looking for seats for a bass boat, pontoon, or yacht, Taylor Made offers ideal solutions to enhance your onboard experience.

VINYL & FOAM

Only mildew and UV resistant, polyurethane foam is used and everything is held together by bonded and color fast polyester UV resistant threading.

E-COATED STEEL FRAME

Our corrosion resistant steel fabricated frames provide structure, comfort and longevity in the marine environment.

CORROSION-RESISTANT FASTENERS

Easily attach to the marine hardware with universal bolt patterns.

BENCH SEATS

Relax and unwind on the bench seating that sets the industry standard. Our rotationally molded bench seating frames and bases allow for the most seating support and storage capacity within the pontoon furniture industry. Multiple density foam packs for comfort, channels for drainage, and large dry storage compartments.

CORNERS

Designed to seamlessly integrate with all lines of pontoon seating available in the marine market, our corner seats offer a simple and effective replacement option.

20" CHAISE

Boasting a variety of uses from additional storage space to optional privacy areas for changing. Lounge in comfort with multiple density foam, cup holders for convenience and a dry storage compartment.

20" CHAISE WITH BUILT-IN PRIVACY STATION

Ideal for full days on the water, the 20" chaise features a privacy station that easily expands from a hatch at the back of the chaise. It is made with outdoor marine fabric and features a zipper for easy entry and exit. Use this space as a changing room, a bathroom or for extra shade, or simply for added shade for onboard items.

BoatGuard® boat covers are America’s best selling universal-fit trailerable boat covers. Strong enough to be trailered and fully capable of surviving the rigors of the road. Storage bag and tie-downs included.

**HOTSHOT FABRIC**
Acrylic polyester gray fabric is lightweight and water repellent.

**STRONG 1” TIE-DOWN LOOPS**
Ensure the cover without scratching the boat.

**BOAT GUARD® ECLIPSE BOAT COVERS**
This cover is designed to be eye catching and fully trailerable. BoatGuard Eclipse offers excellent mildew and water resistance and can withstand harsh environments with ease. Unique design spreads strap tension evenly across cover surface.

**TIE-DOWNS**
Included along with storage bag and support pole.

**SEWN IN AIR VENT**
Provides proper air circulation under the cover.

**BOATGUARD® BOAT COVERS**
Four-ply folded seams and double folded hems.

- Shock cord in the hem for a close fit
- Sizes to fit most models
- 2-year limited warranty

**Maximum Beam Width**

SEMI-CUSTOM BOAT COVERS

ALL SEMI-CUSTOM COVERS INCLUDE TIE-DOWNS AND SHOCK CORD IN HEM FOR A CUSTOM FIT AGAINST YOUR HULL

IMPORTANT: To choose the correct semi-custom fit cover for your boat, you must know the beam width and center line length of your boat. Taylor Made semi-custom boat covers are designed to fit several makes and models of boats with same hull styles. This means that the windshield pocket is in the average position for this range of boats. Your boat may differ.

EURO V-HULL RUNABOUTS
- Fits open or closed bow style runabouts and low profile cuddy cabins
- Curved glass windshields
- Inboard or outboards
- Includes extended/aftermarket swim platforms in overall length
- Motor hoods sold separately

ALWAYS MEASURE YOUR BOAT TO BE ABSOLUTELY SURE THAT YOU ARE GETTING THE CORRECT COVER FOR YOUR BOAT

Over the years, some boat manufacturers occasionally reuse boat model numbers or names. Boats with the same name or model number can actually vary in style or size.

To order your Trailerte® boat cover in Hot Shot®, use the Taylor pattern # with the letter O as a suffix, then the proper color code after the O

For example: 70215OT = Hot Shot® in Teal.

The different color codes are as follows: Cranberry = Y, Hunter Green = F, Grey = G, Navy = N, Pacific Blue = B, Teal = T and Black = R

Extra care should be taken to protect your cover from coming into contact with sharp edges such as windshields, accessory brackets, or bow mounted electric trolling motors. Please pad these areas before installing your cover.

For help finding the correct cover for your boat use one of our easy services:

Online Fit Guide: taylormadeproducts.com

Boat Cover Hot Line: (800) 628-1948

ACCOMMODATES OUTBOARDS

- Covers fit from bow to end of pontoons to up and over tilted outboard motor
- Designed for blunt bow, tapered pontoon inflatable sport boat
- Accommodates low consoles without windscreens

DIE CAST BOW SOCKETS

- Accepts any bow
- Chrome-plated

BOAT COVER SUPPORT POLE

This fully adjustable support pole is three support poles in one. We supply a male canvas snap, a grommet tip, and a plain end cap with these Super Support Poles. So, if you have a female canvas snap or a grommet on your boat cover, you can get a support that will work with your cover. The pole is aluminum, with a durable plastic adjuster to set the correct height for your cover. Also comes in a 3-piece pole that collapses down to 22” for easier storage.

BOAT COVER SUPPORT POLE BASE PAD

Base is designed for use with all 36” diameter (bottom pole) support poles*. The bottom pad is made for EPDM to provide additional friction to hold pole in place against the deck versus the traditional crutch tip design. In addition, the base pad has a swivel capability that allows the pole to be positioned at just the right angle for your application. Simply remove the crutch tip from your existing support pole and insert over adapter to secure. Sold individually.

BOAT COVER SUPPORT SYSTEM

Extend the life of your boat cover by preventing water from pocketing. The system includes 50 feet of webbing, quick release buckles, a boat cover support pole that snaps to the webbing, and two hooks to attach to the transom.

BOAT COVER ACCESSORIES

BOWS

Bows mounted in bow sockets are the sure and easy way to keep a boat cover taut and free from water-collecting pockets. Sockets can be mounted on any rail system. Rubber gasket provides snug fit for fiberglass bows. Made from super strong and flexible fiberglass. Will not take a “set.” Cut to desired length. Shipped with rubber end covers to grab socket. Change color.

JET SKI/PWC

- Designed to fit most make and model PWCs
- Covers offer a more liberal fit, yet still trailerable
- Includes adjustable webbing strap to secure under hull

SNAP FASTENERS

• Installs quickly and easily, with no screws or fasteners
• Venting area provides for greater volume of exhaust air while closing the top to bottom gap – keeping water out
• Manufactured from a superior grade polycarbonate blend material for strength and UV resistance
• Accommodates either 3/4” or 7/8” support poles

#11982 Specially made to grip clinching rings for 3/16” to 1/2” diameter. Spring-loaded handles to hold ring until clamped on. Overall length 6-7/8”.

#1046 Clinching ring plier

#1044 50 stainless steel rings fit 3/16”- 5/16” cord

#1045 50 stainless steel rings fit 3/8”- 1/2” cord

Boat Cover Tie-Down Strap

“QuickClip”

Holds even pressure on tie-down loops – makes for a simple and secure way to attach tie down straps to boat cover. Works on all 1” webbing loops and buckles. Attaches to almost any boat cover:
• Durable quick-release buckle
• Sun resistant polypropylene webbing
• Includes locking quick clip

#55748 8 pack - 8’ L

E-Z™ GROMMET SET

Installs #2 size grommets with 3/8” hole. Set contains hole punch, setting tool, and 18 #2 brass grommets and washers.

#1385 E-Z grommet set

#122 Extra #2 brass grommets and washers – 12 sets

OUTBOARD MOTOR COVERS

Keep your new outboard motor looking good and protect it against harmful environmental conditions. Our outboard motor covers have been redesigned to better fit the newer cowl sizes and later model engines. Simply measure your outboard and determine those dimensions that most closely match your particular model.

TROLLING MOTOR PROP COVERS

• Cut to fit close for trailering
• Draw rope in the hem
• Available in grey Hot Shot™ fabric. Other colors available for special orders

Motor Guide
• Cut to fit close for trailering
• Draw rope in the hem
• Available in grey Hot Shot™ fabric. Other colors available for special orders

“ONE-WAY” SNAPS

Push down on the spot to lock. Lift up on the spot to release. Specially designed for extra holding power. Releases only in the direction of the spot.

#1942 Female fastener. Attaches to cloth (4 sets)
#1943 Male fastener. Attaches to screw (4 sets)

SNAP FASTENERS

Standard snap-on and snap-off design. Snaps on and off in any direction.

#100 Female fastener. Attaches to cloth (6 sets)
#102 Male fastener. Attaches to screw (6 sets)

SNAP FASTENER INSTALLATION TOOL

• Complete instructions included
• Die and setting tool, packaged as a set

#1385
A DURABLE COVER BUILT TO LAST WITH EASY INSTALLATION AND MINIMAL MAINTENANCE

Let’s face it, cleaning your center console boat after a trip is hard enough without having to clean it again before going out. Not only does your custom T-top cover allow you to spend more time on the water, your investment is protected by a durable cover — custom fit to your specific boat model. Whether in the sunny south or the snowy north, Taylor Made’s customized covers protect your boat from harsh elements.

• Covering your T-top center console boat couldn’t be any easier. It is an easy, one-person job, so no help is needed.
• Our lightweight center console covers are uniquely designed with webbing straps and adjustable clips that allow for easy positioning and a secure fit on a wide range of T-top frames.
• Custom Covers attach under your T-top to keep moisture from forming in your boat.
• You can install or remove your cover in as little as five minutes.
• T-top cover sandbags are recommended for boats on lifts or in dry stack storage situations.

FOR STORAGE USE ONLY

BOAT LIFTS  DRY STACKS  JET DOCKS

FOR ANY ADDITIONAL QUESTIONS, CONTACT THE TEAM AT TAYLOR MADE
by phone: (800) 628-5188  via e-mail: customercare@ttotpcoversforboats.com

We currently have thousands of boat covers for center consoles with T-tops on file. Our list of custom patterns is updated often and regularly. If you do not see your make/model be sure to contact us as there is always a possibility that we actually do have it or can get it easily.

SANDBAGS
Each sandbag weighs 7-8 lbs. and has a life jacket buckle connector strap for an easy connection to the cover if you’re on a lift or in a dry stack. They come complete with sand and in matching colors.
#219LN Navy  #219LK Black

TIE-DOWN STRAPS
Our 12’ long, 1” wide webbing straps are sold in a set of 9. Each tie down strap comes with a plastic life jacket buckle for easy installation from the cover to the trailer.
#512

STORAGE BAGS
We offer two sizes, large and extra large.
#719LN Large/Navy (for covers up to 29’)
#719LK Large/Black (for covers up to 29’)
#819LN Extra Large/Navy (for covers over 29’)
#819LK Extra Large/Black (for covers over 29’)

**T-TOP BOAT COVERS**

**FOR BOATS WITH FIXED T-TOPS**

- Slow and stern sections zip together, for single person installation.
- "Console tube" secures up underneath the T-top, protects the center console and will accommodate most sizes and locations of tops and consoles on boats up to 25'-4".
- Tie-down system included, this system relieves stress on the zipper ends during over the road trailering.

**Width x Length**

- 24'-5" to 25'-4"
- 23'-5" to 24'-4"
- 21'-5" to 22'-4"
- 19'-5" to 20'-4"
- 17'-5" to 18'-4"
- 18'-5" to 19'-4"
- 20'-5" to 21'-4"

**T-TOP BOW SHADE**

An economical and versatile way to add shade to the rear of your center console or walk-around boat. Our lightweight material, "Resilience" has exceptional elasticity and protects against harmful UV rays while re-flecting up to 79% of UV heat. Installs within minutes. Kit includes necessary poles and stores easily in its own bag. Available in 3 sizes and one color: Black.

- **RESILIENCE** is bonded with an outer UV reflective coating. At 20% stretch, it offers an effective UV block of 98%.
- **RESILIENCE** is extremely breathable and whisper quiet while underway so it can handle speeds up to 30 knots. Because of dark pigments, it withstands to UV rays the longest and provides the most UV protection.
- **RESILIENCE** has a one year warranty.
- **RESILIENCE** shade kit's quality and features make this the best product available for sun protection anywhere.

**T-TOP BOAT SHADE KIT**

A quick and easy way to gain additional shaded area on your center console boat with a T-top installed. Shade is available in sizes to accommodate boats up to 102" width and extends out to 7' of coverage. Constructed from Hot Shot™ marine grade polyester fabric, the top is strong yet lightweight. It is secured to the T-top and bow rails with adjustable straps and quick release buckles for simple and fast installation. Shade folds down to compact size for ease of storage and is available in 9 colors to best match your boat.

**QUICK RELEASE BUCKLE**

**ELECTRONICS BOX**

The fiberglass Electronics Box by Taylor Made sports an RTM molded design with a large interior for a variety of storage options. The 27" x 26" box allows for plenty of room for all your electronics and many other items that need to be stored away from the elements. 27"W x 26"D x 10"T. Made of a closed cell foam and a vinyl coated skin with an organic textured pattern. The Helm Cushion is weather resistant in both freshwater and saltwater. The cushion reduces the amount of impact on your joints as you crash into waves and gives support while standing on your hand decks for hours on end. The Helm Cushion was designed to reduce the amount of vibration transmitted from your deck to your legs. 38"W x 14"D x 2"T. Snaps in each corner can be used to secure the cushion to the deck. Available in 3 sizes to accommodate boats up to 102" width.

**HELM CUSHION**

- Made of a closed cell foam and a vinyl coated skin with an organic textured pattern. The Helm Cushion is weather resistant in both freshwater and saltwater. The cushion reduces the amount of impact on your joints as you crash into waves and gives support while standing on your hand decks for hours on end. The Helm Cushion was designed to reduce the amount of vibration transmitted from your deck to your legs. 38"W x 14"D x 2"T. Snaps in each corner can be used to secure the cushion to the deck.

**Resilience**

- Recommended for boats up to 17'-4"
- Recommended for boats up to 23'-4"
- Recommended for boats up to 29'-4"

**Universal T-Top Center Console Covers**

This T-Top Console Cover is secured to the underside of the fixed T-top structure and will enclose any size console, helm seat and T-top combination with a maximum base perimeter (at the deck) of 18' or less. All console covers measure 48"W x 60"L x 66"H.

- Adjustable straps allow the cover to conform to most console configurations.
- Boats with smaller consoles and T-tops can also cover and protect the helm seats.
- Universal T-Top Center Console Covers is bonded with an outer UV reflective coating. At 20% stretch, it offers an effective UV block of 98%.

**Electronics Box**

- Made of a closed cell foam and a vinyl coated skin with an organic textured pattern. The Helm Cushion is weather resistant in both freshwater and saltwater. The cushion reduces the amount of impact on your joints as you crash into waves and gives support while standing on your hand decks for hours on end. The Helm Cushion was designed to reduce the amount of vibration transmitted from your deck to your legs. 38"W x 14"D x 2"T. Snaps in each corner can be used to secure the cushion to the deck.

**Helm Cushion**

- Made of a closed cell foam and a vinyl coated skin with an organic textured pattern. The Helm Cushion is weather resistant in both freshwater and saltwater. The cushion reduces the amount of impact on your joints as you crash into waves and gives support while standing on your hand decks for hours on end. The Helm Cushion was designed to reduce the amount of vibration transmitted from your deck to your legs. 38"W x 14"D x 2"T. Snaps in each corner can be used to secure the cushion to the deck.
SPECIALTY COVERS

TRAILERITE® PRO SERIES COVERS

- Keeps boat interior temperatures up to 20˚ cooler
- Reflective strips (sewn to sides of stern)
- Sewn into hem is 1” webbing with two stern ratchets in protective pockets to prevent gelcoat damage
- Includes quick-release 2” wide belly straps to eliminate stress and prevent abrasion
- Reinforcements over single or dual consoles and over port mounted trolling motors

FABRIC FEATURES:

- Silver reflective, heavy-duty 600 denier marine grade 100% polyester fabric
- Superior tensile and tear strength
- Extreme water repellency
- Stain, UV and mildew resistant

PROTECTIVE POCKETS

KEEP COVER SAFE WHILE NOT IN USE

LASER BOAT COVERS

Square Tube Bimini Tops & Hardware 124  Pontoon Bimini with Light Cutout 125  Playpen Shade 125  Gazebos 126
BIMINI BOATOPS®

Manufactured with superior features, these units are sold with the frame, fabric tops and storage boots packaged separately.

Frames are available in bright dip anodized aluminum or stainless steel. Stainless steel frames come with stainless steel fittings, bright dip anodized aluminum frames come with marine grade nylon hardware. Fabric tops are available in Hot Shot™, Ultima™, or Sunbrella® brand fabrics.

STEP 1 SELECT THE FRAME
1. Determine the length: 4’, 6’, or 8’.
2. Determine the height: 36”, 42”, or 54”. This is the maximum standing height under the frame; measured from the mounting location points.
3. Determine the width: 60” to 103”.
   a. Measure from the mounting point on one side of the boat, to the same location on the opposite side of the boat (this is not the same as “beam width” or boat width).
   b. Widths of the Bimini BoaTops are specified in increments of 6” (choose the width that best matches your mounting point measurement).
   c. Frames are designed as “knock-down” frames, meaning they snap together via double-sided snap buttons.
   d. 3-Bow or 4-Bow. This refers to the number of bows that make up the frame. 3-bow for the 4 ft. and 6 ft. length tops, and 4-bow for 8 ft. long tops.
   e. All sizes ship unassembled, via UPS or FedEx.

STEP 2 SELECT THE FABRIC
From the economical Hot Shot™ pigment-dyed fabric to the premier durability and style of Sunbrella®, the choice is yours when it comes to your bimini. All of our fabric choices are treated for water repellency and mildew resistance to withstand the harsh marine environment.

STEP 3 SELECT THE STORAGE BOOT
Zippered storage boots provide a convenient way to keep your top clean and neat while being stored. Boot sizes are determined by frame width. Boots are available in the same fabrics as the tops above. All boots feature full-length separating zippers for easy on/off.

All Bimini BoaTops® Ship Within 5 Business Days

SELECTING THE RIGHT BIMINI TOP & FRAME
The combination of height and length determine how much shade your Bimini BoaTop® will provide. Think about how you use your boat and what you want to shade. For example, if you want to shade yourself and your children in the back, you probably want the longest bimini available in a medium height. If you are out fishing by yourself most of the time, you probably want the higher, shorter Bimini BoaTop®.

To order your Bimini BoatTop frame in stainless steel, simply use the Taylor Frame Stock # with the letters SS as a suffix.

For example: 36465SS

is a stainless steel bimini top, 54" high with a length of 8' and a width of 76"-84".
We now offer all of our Taylor Made® Bimini Boatops in a full-frame construction, as opposed to the three-piece knock down construction. The aluminum frames are available in two lengths (6', 8'), two heights (42", 54") and widths ranging from 60" to 103". Frames are 7/8" bright dip anodized aluminum tubing with non-corrosive high-density black nylon fittings. Also available in 36" high (x 4' and 6 ft.) and 8 ft. long (x 42" and 54") full-frame biminis. Ask your Taylor Made representative for a part number listing and pricing. Full-frame tops are shipped fully assembled. Truck shipments only.

Also available in:

**TOWER BIMINI TOP**

Tower bimini tops are designed to mount within the confines of most wakeboard towers to provide shade for driver and spotter. All tops are 48" long and approximately 16" (from mounting point) and are available in three different widths to best fit most towers. Frame is constructed from bright dip anodized aluminum tubing and uses high quality marine grade hardware. Top features Ultima™ fabric for the best performance in strength, UV stability and longevity and is available in eight popular colors.

**CHOOSING THE CORRECT TOP SIZE:**

The tops will mount directly onto the tower frame at the center point, so pick the best position on the tower that will provide the best shade to the driver’s seat. The tops are low profile at approximately 16” high at the maximum, so be sure that the position will keep the top high enough to clear the driver and spotter when seated. Measure across the tower at the mounting point that has been selected and choose the dimensions from the chart noting the bimini width that matches your measured width on the tower. Check the width at the top and be sure that the angle of your tower will accommodate that dimension.
BIMINI BOATOPS® & ACCESSORIES

CONVERTIBLE BIMINI TOPS
Stay protected from the elements above and beyond the OEM windshield with these uniquely designed tops. They incorporate all marine grade fabrics and components including tough, water repellent polyester fabric and heavy gauge clear PVC zippered walk-thru section for great visibility. Elastic panels along base section allow tops to universally snap to the windshield with included 7/8” top lock stainless steel clips. Snaps. If your windshield is a different size or design, you may need to purchase correct size clips. Frame is constructed of 7/8” diameter bright dipped anodized aluminum with nylon fittings and stainless hardware.

• Two-bow tops extend 48” in length with maximum height approximately 49” above the mounting points with a width of 67” to 72”
• Three-bow tops extend 58” in length with maximum height approximately 47” above the mounting points with a width of 79” to 84”

#62073 Two-bow 4’ x 49”, 67” to 72” Blue
#62074 Two-bow 4’ x 49”, 67” to 72” Grey
#62075 Three-bow 5’ x 47”, 79” to 84” Blue
#62076 Three-bow 5’ x 47”, 79” to 84” Grey

Keep your Bimini BoatTop off the gunwales with a pair of Bimini Support Poles. Available in adjustable or fixed lengths, use these poles to replace your rear straps and keep your top “up and out of the way.” Two jaw slides (7/8”) and deck hinge are included.

• Two-bow tops extend 48” in length with maximum height approximately 49” above the mounting points with a width of 67” to 72”
• Three-bow tops extend 58” in length with maximum height approximately 47” above the mounting points with a width of 79” to 84”

#50273 Two-bow 4’ x 49”, 67” to 72” Blue
#50274 Two-bow 4’ x 49”, 67” to 72” Grey
#50275 Three-bow 5’ x 47”, 79” to 84” Blue
#50276 Three-bow 5’ x 47”, 79” to 84” Grey

Designs Specifically
FOR DEEP “V” ALUMINUM FISHING BOATS WITH WALK-THRU WINDSHIELDS

CAUTION: These poles should never be used to replace the front support straps. Only the rear straps should be replaced with adjustable support poles. Do not exceed 35 miles per hour while using adjustable bimini top support poles.

**SQUARE TUBE BIMINI BOATOP® HARDWARE**

- Replacement hardware for square tube bimini tops as used on most of today’s pontoon boats.
- Sold in single pieces.

**PONTI ON BIMINI TOPS WITH LIGHT CUTOUT**

New to our line of fabric tops are these pontoon biminis that now accommodate bimini tops with lights. All tops are 8’ long and are available in 96” or 102” widths, matching storage boots sold separately. Choose from Hot Shot®, Ultima® or Sunbrella® brand fabrics.

**PONTOON PLAYPEN SHADE**

A quick and easy way to gain additional shaded area on your pontoon boat while protecting your seats from the harmful UV rays from the sun or other harsh weather conditions. Shade is available in sizes to accommodate boats up to 102” width and extends out to 12 ft. of coverage. Constructed from Hot Shot™ marine grade polyester fabric, the top is strong yet lightweight. It is secured to the front bow of your boat while protecting your seats from the harmful UV rays from the sun or other harsh weather conditions. Shade folds down to compact size for ease of storage and is available in nine colors to best match your boat. Not for use while underway.

**STANDARD COLORS**

- Pacific Blue
- Black
- Grey
- Navy
- Hunter Green
- Sand
- Teal
- White
- Cranberry

Sunbrella® is a registered trademark of Glidden brand fabrics.
NOTE: The Gazebo obstructs the driver’s vision and, as such should NEVER be put up while the boat is in motion; at any speed. This product is designed to provide shade while moored or anchored only.

A quick and easy way to gain additional shaded area on your pontoon boat. Top accommodates both 96” and 102” wide boats and extends out to 8 ft. of coverage. Constructed from Hot Shot™ marine grade polyester fabric, the top is strong yet lightweight. It is supported by shock-corded fiberglass pole framework that breaks down for convenient storage. The large interior radius allows you to sit comfortably on existing seating without bending over or crouching down.

After initial installation of permanently mounted hardware, the Pontoon Gazebo sets up easily and comes down in minutes for convenient storage. Comes complete with enclosure, frame, marine grade hardware, storage bag and instructions. Enclosure is available in multiple colors to best match your existing bimini or canvas.

### PONTOON ENCLOSURE

Providing comfort and convenience, this spacious enclosure fits easily over the bow area of your pontoon boat. Constructed from durable polyester fabric shell (fire retardant) with zippered entryway, mesh windows and supported by a shock-corded fiberglass pole framework. The enclosure measures approximately 16’ deep x 7’ tall (varies slightly by beam and railing height) by the width of the playpen area (fits both 96” and 102”). The large interior radius allows you to sit comfortably on existing seating without bending over or crouching down.

After initial installation of permanently mounted hardware, the Pontoon Enclosure sets up easily and comes down in minutes for convenient storage. Comes complete with enclosure, frame, marine grade hardware, storage bag and instructions. Enclosure is available in multiple colors to best match your existing bimini or canvas.

### STANDARD COLORS

- **Pacific Blue**
- **Black**
- **Grey**
- **Navy**
- **Hunter Green**

- **Cranberry**

### PONTOON GAZEBO

This partition provides privacy from on-lookers while out on the water. It can be installed anywhere under your bimini top or hard top with included straps and hardware. Constructed from fire-retardant, marine grade polyester, it easily secures with UV resistant tie-downs and fasteners. Features a full-length, heavy-duty zipper for easy access and when installed measures 30” wide x 30” deep x 70” tall. Comes in grey polyester only.

### EASY UP PRIVACY PARTITION

Extend the life of your pontoon boat cover by preventing water from pocketing. This easily installed system includes two adjustable support poles (bright dip anodized – snap ends). Poles adjust from 27” to 50” maximum height. 60 ft. of T-polypropylene webbing quick release adjuster buckles and four injection molded hooks to secure to decking.

### PONTOON BOAT COVER SUPPORT SYSTEM

NOTE: Not to be used while under way. Enclosure should not be left up for storage or extended periods of time.
Long known for manufacturing quality marine products, Taylor Made has reinvented the highly successful Anchorshade. Several important design changes are being introduced, including larger diameter and solid fiberglass structural ribs. Also added to these improvements is a powder-coated aluminum frame (so even if scratched, it will not rust). These newest innovations are sure to keep your Anchorshade III looking and working well for years to come.

This uniquely designed 6 ft. x 6 ft. square umbrella can be used on almost any vessel from a small fishing boat to larger high-performance boats. AnchorShade III is designed to be used when anchored or at idle speed on a calm day. AnchorShade III is perfect for relaxing on the water, at dockside, or just lounging on the beach.

- **Adjustable pole locks in place up to 8’**
- **Lightweight, mildew/fade resistant UV-treated polyester top**
- **Excellent sun protection. Blocks out 85-90% of harmful rays.**
- **Adjustable straps with non-corrosive hardware provide mounting flexibility for nearly all applications**
- **Market-style top allows venting to occur without loss of sun protection**
- **Available in ten dynamic colors to best match your boat.**

**ANOTHER NEW WAYS TO ENJOY THE WATER**

**STAY PROTECTED**
- Stylish and versatile protection from up to 90% of harmful UV rays.
- Heavy-duty stainless steel D-rings
- Kit includes: Turnbuckles, pad eyes and carabiner hooks

**SAILSHADES**
- Use anywhere shade is needed
- Perfect for your yacht, backyard, pool, patio or picnic area
- Kit includes: Stainless steel hardware. Mounting kit not included

#5618 Beer flag

Sec.07 Flags & Deck Hardware

Sec.07 Flags & Deck Hardware
The original Charlevoix Flag Clip ends the trouble of attaching your flag to a standard flag or stern light pole. This simple one-piece clip attaches semi-permanently to your pole and will keep your flag securely in place at speeds up to 50 miles per hour. Flags can be attached or removed in seconds. The clips can also be removed, if desired. Sold in pairs.

#57926 One-piece flag clip fits 3/4” pole
#57928 Fits 7/8” to 1” flag pole

Stainless steel Skipper Flag Clips provide an easy way of attaching flags, canopies, curtains etc. The extended length of these versatile clips reaches grommets 3/4” from fabric edges. Package includes four Skipper Flag Clips and self-tapping screw eyes for attachment to wood, metal or fiberglass.

#57933 Skipper Flag Clips w/screw eyes (4 pk.)

Like Charlevoix Flag Clips, these burgee and antenna clips are designed to allow you to fly your burgee or courtesy flag from your antenna without fear of losing it. These clips fit standard 1/2” burgee poles or 1/2” whip antenna. Neoprene is provided for use with poles on antenna smaller than 1/2”.

#57925 Pole/antenna flag clip
• Mounts to 7/8” to 1-1/4” rails
• Adjusts to any angle
• T304 stainless steel
• Round rails only

#961 Fits 3/4” to 7/8” poles
#963 Fits 1” to 1-1/4” poles

This deluxe flag pole set features highly polished stainless steel from top to bottom. The staff is made from 1/2” stainless steel. The finial and base are cast 304 stainless steel. The unique flag clips are cast from 304 stainless steel which holds your flag taut so your flag is never tangled.

#965 Made from beautiful long lasting T316 polished stainless steel
• 10˚ angle
#967 Fits 1–1/4” poles
#969 Fits 1-1/4” poles

Developed with the pontoon boater in mind, this new injection molded black nylon mount attaches easily to the top of your pontoon railing and features a 10˚ presentation angle. The 3/4” diameter bright dipped anodized aluminum pole simply snaps into the base and features color matched Charlevoix Flag Clips.

#921 24” Pontoon flag pole, mount & 12 x 18 US flag
#922 30” Pontoon flag pole, mount & 16 x 24 US flag
#921CAN 24” flag pole, mount & 12 x 18 Canadian flag
#922CAN 30” flag pole, mount & 16 x 24 Canadian flag

Made from the finest grade A, kiln-dried teakwood. Never worry about insects or wood rot again.

• Available in 5 lengths from 18” to 48”
• No deteriorating or warping

• 3/4” x 18”
#60749
• 1” x 24”
#60750
• 1” x 30”
#60752
• 1” x 36”
#60754
• 1” x 48”
#60756
• 1-1/4” x 36”
#60758
• 1-1/4” x 48”
#60760

Designed to securely fasten to either 7/8” to 1” or 1-1/8” to 1-1/4” rails. Both models are perpendicular to the rail and are made for 1” diameter flag poles.

#950 Fits 7/8” to 1” flag staff
#951 Fits 7/8” to 1” flag staff
#952 Fits 1” to 1-1/4” flag staff
#953 Fits 1” to 1-1/4” flag staff
#954 Fits 1-1/4” to 1-1/2” flag staff
AQUATIC GEAR

STOW N’ GO™ TABLE
The Stow N’ Go™ Table is the perfect portable folding table for your picnics at the park, beach or dinner on the dock. The table is lightweight but very sturdy in its build. Plenty big enough for a game of cards or a lunch table up off the sand.

- Material is durable polyester fabric
- Sets up quickly and easily
- Holds up to 30 lbs.
- Collapsible frame makes it easy to take this table anywhere
- Storage bag with zipper & grab handle

STOW ‘N GO™ CHAIR
Enjoy this simple, lightweight chair for a comfortable experience while at the beach, dockside, campsite, or boat. Sit in comfort and style anywhere a chair is needed.

- Seat material is durable polyester fabric
- Holds up to 250 lbs.
- Collapsible frame and easy carry bag makes it easy to take this table anywhere

COLLAPSIBLE COOLER
This 8-liter collapsible cooler comes equipped with handles on both sides of the bag for easy transportation. A full zippered top with quick access velcro hatch makes getting into the bag simple and easy.

- Rip and tear resistant fabric
- Collapses down for easy storage when not in use
- Lightweight and durable
- Heat sealed liner
- 13-1/2” T x 13” diameter

WATERPROOF PHONE CASE
This waterproof phone case allows you to be worry free when taking pictures on the water or texting in the rain. It has a clear window that allows for more phone visibility. Comes with detachable lanyard for added safety while on the water.

- Usage of phone through the case
- Can hear audio
- Sand proof
- Durable

DRY BAG
This Dry Bag is 100% waterproof (not submersible) and guaranteed to keep all your gear and valuables protected from the elements. The durable Dry Bag is lightweight and tough.

- Internal air bladder with inflation valve to provide positive flotation

TRAVEL COOLER
The travel cooler comes equipped with a large insulated main compartment to keep supplies cool and also makes cleaning easy. Convenient inside mesh freezer pack compartment located on cooler lid. Bag has an adjustable shoulder strap for carrying comfort.

- Rip and tear resistant nylon exterior with insulated interior
- Leak-resistant, heat sealed liner
- Holds eight 12 oz. cans plus ice
- Multiple pockets included on both inside and outside
- 12-1/2” L x 6-1/2” W x 8” T

COOLER TOTE
The cooler tote is the perfect easy to carry cooler for your all day outings to the park, beach or boat. The front pocket is designed to hold any utensils, electronics, or extras you may be carrying along. The large and spacious zipper compartment has a heat sealed, leak resistant liner that makes for easy clean up.

- Bag measures approximately: 13-1/2” T x 7” W x 14” L (at base), 18” L (at top)

LANYARD
A multi-purpose accessory, includes a durable key ring and lobster clasp attachment and a quick-release buckle for quick breakaway.

- Over all length is 22”
- Strong polyester and woven satin

STEERING WHEEL COVER
The Steering Wheel Cover is constructed with a neoprene fabric, which protects your hands from the cold and heat. It also protects your steering wheel against wear and tear of daily use.

- Protects hands from heat and cold
- Provides comfortable grip
- Fits most automotive and marine steering wheels
HATCHES

ULTRA III HATCH

- Trim ring included
- Low profile access
- Ventilation hatch
- Screen sold separately

ULTRA III REPLACEMENT HANDLES & ARMS

HATCH REPLACEMENT PARTS - MODEL YEARS 1990 TO PRESENT

WINDSHIELD ACCESSORIES

WINDSHIELD SUPPORT BARS
Used as original equipment on many fine walk-thru windshields. Windshield support bars are made from either anodized aluminum tubing with nylon fittings or powder coat aluminum tubing with chrome plated Zamak feet. The fittings allow for pivot in almost every direction for easy installation.

- Sold in single units

WINDSHIELD MALE SNAP ADAPTER
Designed and used for many OEM windshield/canvas applications. Molded nylon insert fits into trim grooves 0.200” wide by 0.500” deep and accepts standard male screw-in snaps. 6 sets of inserts and snaps included. Used to secure cockpit covers, bow covers, bimini tops, etc.

TOP-LOCK STAINLESS STEEL
For heavy T round trim, Stud portion affixed.
- For 3/4” and 7/8” trim
- Stud portion affixed

ADJUSTABLE SIDE VENT HANDLE
Designed to replace most original handles on side vent windows. Easy installation. Designed to fit side windows having exactly 1/4” mounting hole.

HIDDEN HOLD-DOWN FASTENERS
Complete with nuts and rubber grommets.

WINDOW SAVERS
- Designed to clip onto 7/8” or T tubing and hold your enclosures away
- Stops plastic windows from getting burned by hot tubing

Items A & E are for model years 1989/Present only, item G is for model years 1990-89 only. All hatch riser arms and handles are universal and can be used on the left or right side.
Sec.07 Flags & Deck Hardware

**TURN LATCH**
A simple twist latch for securing walk-thru windshields or other hatch openings. Black thermoplastic, complete with self-tapping screws.

**DOOR CATCHES**
For walk-thru windshields and other doors. Holds door firmly, in place against vibration and motion. Black thermoplastic, consisting of ball stud, catch, and screws.

**WHITE TWIN-FLAP DECK CHANNEL**
Punched to accommodate hidden fasteners of external angles. 3/4" wide and 5/8" high.

**WINDSHIELD SCREW COVER FOAM**
Our PVC self-adhering based foam has been used on many fine original equipment windshields.

**DOOR PADS**
Adhesive-backed rubber, 3/4" x 3/4" gives protection when applied to windshield doors.

**FOAM TAPE**
Adhesive-backed urethane, 1/4" x 3/4" provides seal between windshield bottom and boat deck or other boat sealing jobs.

---

**STANDARD GAS SHOCKS**
These reliable gas shocks incorporate a strong annealed steel rod with a special coating for added corrosion resistance. These shocks are an ideal choice when used near or around high salt water areas where corrosion is a large factor. All shocks fit 10 mm ball ends unless noted.

**STAINLESS STEEL GAS SHOCKS**
These shocks are constructed from highly corrosion resistant 316 stainless steel which make them the best selection for use in the harshest marine environments.

LIMITED WARRANTY INFORMATION - APPLICABLE TO ALL PRODUCTS

TAYLOR MADE® SHALL NOT BE LIABLE FOR SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, NOT FOR ANY DAMAGES OR REMEDIES NOT SPECIFICALLY SET FORTH IN THIS WARRANTY. "TAYLOR MADE® SHALL NOT BE LIABLE IN THE EVENT, FOR ANY DAMAGES IN EXCESS OF THE COST OF THE PRODUCT. Some states do not allow the exclusion or limitation on consequential damages, so the above limitation or exclusion may not apply to you.

The implied warranties of merchantability and fitness for a particular purpose shall not be extended beyond the duration of the express warranties herein. Some states do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you.

All potentially defective products must receive a Return Goods Authorization (RGA) before they are returned to Taylor Made® Products. Products returned without an RGA will be refused, and the product will be returned to sender. To receive an RGA, call us at 1-800-628-8189. All products returned to us MUST be accompanied by a proof of purchase, without exception. Freight on defective products is the responsibility of the consumer. (UPS is the preferred method of returning a product to us.) Repaired or replacement products will be shipped back to the consumer freight prepaid. This warranty policy is the only warranty expressed or implied, made by Taylor Made®. No person is authorized to change, add to, or create any warranty or obligation other than set forth herein. This warranty gives you specific legal rights, and you may have other rights which vary from State to State. To obtain service under this warranty, contact Taylor Made® at the following address:
Taylor Made®
65 Harrison Street
Gloucester, NY 12708
518-773-9400
www.taylormadeproducts.com
sales@taylormadeproducts.com

The user should check the mooring every three months to be sure that it is secure and has not deteriorated to a level where it may fail under stress. A copy of the original sales receipt, documenting the date of purchase, must accompany all warranty claims. Obligation under this warranty is limited to repair, replacement, or credit of the defective product at our discretion. Taylor Made® reserves the right to reject return of the product for inspection. No return merchandise will be accepted without prior authorization. Taylor Made® shall not be liable for indirect, special, incidental, or consequential damage or penalties and does not assume liability of purchaser or others for injury to persons or property. This warranty is in lieu of all other warranties, express or implied.

BOAT COVERS & BINMI BOATOPS® LIMITED WARRANTY
Taylor Made® warrants its TrailerKit boat covers and Binmi BoatOps® to be free of defects in material and workmanship. The different types of products, and their warranty periods, are specified below:

- Fabric discoloration or failure due to chemical exposure (includes free sap, bird droppings, oil, and gas).
- Mildew caused by dirt resting on the product, or the product being stored while damp.
- Damage caused by acts of God.
- Under the terms of this warranty, any TaylorMade® or Binmi® product found to be defective will be repaired or replaced, at Taylor Made Products’ option. If minor repairs can return the product to useful service, it will be repaired at no charge. If the product is beyond minor repair, the cost of replacement (a new product) will be calculated by subtracting the residual value of the defective product from the current actual retail price for the same item. When you call us for a Return Goods Authorization (RGA), we can estimate the replacement cost of the product.

This warranty is in lieu of all warranties, express or implied, and under no circumstances shall Taylor Made Products be liable for any damages in excess of the boat cover’s original purchase price.

TAYLOR MADE® VINYL FENDER & VINYL BUOY LIMITED WARRANTY

"Lifetime" Limited Warranty applies to: Super Gard®, Half Gard®, Big B® and Storm Gard® fenders only.

One Year Limited Warranty applies to: Tuff End® Fenders and Buoys, Fender Cushions®, Low Freeboard Fenders, PWC Fenders, and Transom Fenders.

All warranted replacements must meet this simple criteria: The fender has split or burst from normal use and damage is not the result of a knife cut or puncture from a sharp object.

Taylor Made® warrants its vinyl fenders to be free of defects in material and workmanship under normal use and service for which the product is intended. Vinyl fenders are intended to be attached to a boat or a dock by means of a rope or multiple ropes tied through the eyelets. The use of a type of metal fasteners to secure a fender is not recommended as it increases the possibility that the vinyl and potential damage to the boat hull. The use of any metal fasteners voids the fender warranty. Obligation under this warranty is limited to repair, replacement, or credit of the defective fender at our discretion. Taylor Made® reserves the right to reject return of the product for inspection. No return merchandise will be accepted without prior authorization. Taylor Made® shall not be liable for indirect, special, incidental, or consequential damage or penalties and does not assume liability of purchaser or others for injury to persons or property. This warranty is in lieu of all other warranties, express or implied.

FOAM FILLED MOORING BUOY LIMITED WARRANTY: FLATIONATION FOR 3 YEARS

This product is warranted to be free of defects in material and workmanship. The float of the buoy is warranted for three years from the date of sale: that it will maintain its flotation when used for its intended purpose under normal use, wind, weather, and water conditions. It is NOT warranted against acts of vandalism. It is NOT warranted against attack by animals, birds, fish, or people. The hardware of the buoy is warranted for one year from the date of sale: that it will maintain its structural integrity when used for its intended purpose, under normal exposure to weather and water conditions. It IS NOT IMPLIED THAT THIS PRODUCT WILL WITHSTAND UNUSUAL CONDITIONS SUCH AS SEVERE STORMS, SEVERE TIDES, OR HURRICANES. THE USER SHOULD CHECK THE MOORING EVERY THREE MONTHS TO BE SURE THAT IT IS SECURE AND HAS NOT DETROITED TO A LEVEL WHERE IT MAY FAIL UNDER STRESS.

The user should check the mooring every three months to be sure that it is secure and has not deteriorated to a level where it may fail under stress. A copy of the original sales receipt, documenting the date of purchase, must accompany all warranty claims. Obligation under this warranty is limited to repair, replacement, or credit of the defective buoy at our discretion. Taylor Made® reserves the right to reject return of the product for inspection. No return merchandise will be accepted without prior authorization. Taylor Made® shall not be liable for indirect, special, incidental, or consequential damage or penalties and does not assume liability of purchaser or others for injury to persons or property. This warranty is in lieu of all other warranties, express or implied.
