### **TAYLOR MADE PRODUCTS NOW OFFERS T-TOP ZIP ON WEATHER ENCLOSURES**

GLOVERSVILLE, N.Y. – July 23, 2013– Taylor’s new Zip On Weather Enclosure will install and fit any T-Top cover frame

*“The enclosure is designed to simply ‘Zip on’ or ‘Zip off’ the T-Top cover frame,” says David Karpinski, vice president of sales and marketing for Taylor Made Products. “The complete enclosure may be deployed or removed and stored in less than a minute.”*

Three, five foot zipper panel strips allow the three panels to “zip on” the T-Top cover frame. This allows the (3) panels then zip together forming a three sided rectangular enclosure.

The Weather Enclosure is constructed from our Ultima™ fabric ensuring the absolute best performance in strength, color fastness and UV stability for added longevity. Its urethane coating provides superior water repellency, while maintaining breathability. The rectangular shape at the base of the front and both sides of the enclosure are reinforced. The enclosure base will conform and fit the length and width of any combination of center consoles and T-Top supports.

The front center panel may also be used as a “stand alone” windshield. Available in gray and blue, these Weather Enclosures come with a protective storage bag.
