TAYLOR MADE PRODUCTS NOW OFFERS PREMIUM FENDER COVERS

GLOVERSVILLE, N.Y. – July 23, 2013– Manufactured from 100% Premium Polyester fabric with a circular knit construction, these premium fender covers are made to stand up to sunlight, abrasion and harsh environments. Having a high degree of elasticity allows for the cover to maintain its shape and ensure a tight fit to your fender. An adjustable, high-strength polypropylene rope keeps the cover firmly in place at the top and bottom but is easily removable.

“Because we are combining superior fabric with these excellent construction features, Taylor is delivering a fender cover that will last in the harshest of environments,” said David Karpinski, vice president of sales and marketing for Taylor Made Products. “These covers look great and will continue to provide protection for many years.”

Sold individually and available in two popular colors, navy and black, these covers are made to fit most fender styles and sizes. To prolong the life of the cover, simply wash in cold water and mild detergent.

About Taylor Made Products
