TAYLOR MADE PRODUCTS NOW OFFERS T-TOP BOAT COVERS WITH NO CUT OUT AND DUAL CUT OUT PATTERNS

GLOVERSVILLE, N.Y. – July 23, 2013– Taylor Made Products is expanding their T-Top Boat Cover line with two new products: No Cut Out Pattern, for boats with sea mount style engine bracket and Dual Cut Out Pattern, for boats with side by side mount dual outboards.

“This unique, trailerable, single person installation cover is unbeatable,” says David Karpinski, vice president of sales and marketing for Taylor Made Products. “Now, by providing dozens of T-Top cover options, we are able to satisfy more center console boat owners than ever before.”

For installation, the bow and stern sections of the cover zip together while the “console tube” secures up underneath the T-Top protecting the center console. Covers are available for boats ranging from 17’5” to 25’4” in length with a maximum beam width of 102”. Covers are supplied with Tie-Down Systems that relieve the stress on zippered ends during over the road trailering. Both new patterns are available for boats with and without bow rails.
