TAYLOR MADE PRODUCTS INTRODUCES TROLLING MOTOR PROP COVERS

GLOVERSVILLE, N.Y. – July 14, 2015 – Taylor Made Products introduces Trolling Motor Prop Covers.

For over 100 years, Taylor Made has been making marine products that boaters have always been confident in using to protect their investment. Taylor Made is proud to present a new line of fishing accessories designed especially for the tournament fishing world.

“Taylor Made developed the Trolling Motor Prop Covers with professional competition bass fishermen.” says David Karpinski, vice president of sales and marketing for Taylor Made Products. “They were experiencing wear on the bow of their covers, caused by the sharp blades on the bow mounted trolling motor making contact with the cover during travel. Our prop cover slips over the propeller blades, preventing contact with the cover. A prop cover can also protect people from making unintended contact with the blades. The red color provides a visual warning, and has been popular in show rooms and boat shows, where there is opportunity for contact and injury.”

Made from heavy-duty marine grade vinyl. Sizes to fit both 2 or 3 blade propellers. Offered in 2 colors. Red or Black. Made in the USA.

About Taylor Made Products
